CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2018

1. CORPORATE INFORMATION

This financial report includes the consolidated financial statements and notes of Magnetite Mines Limited and its controlled entities (“consolidated entity or group”).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

These general purpose interim financial statements for the half-year reporting period ended 31 December 2018 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Magnetite Mines Limited and its controlled entities (referred to as the "Consolidated Group" or "Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2018, together with any public announcements made during the following half-year.

These interim financial statements were authorized for issue on 15 February 2019.

a) Accounting Policies

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

The Group has considered the implications of new and amended Accounting Standards but determined that their application to the financial statements is either not relevant or not material.

b) Amendments to AASBs and new Interpretations that are mandatorily effective for the current reporting period

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current half-year.

The adoption of these amendments has had no impact on the disclosures or the amounts recognised in the Group’s condensed consolidated financial statements.

c) Mineral exploration and evaluation

The application of the Group's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits are likely either from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. The determination of a Joint Ore Reserves Committee (JORC) resource is itself an estimation process that requires varying degrees of uncertainty depending on sub-classification and these estimates directly impact the point of deferral of exploration and evaluation expenditure. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalised, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalised is written off in the statement of profit and loss in the period when the new information becomes available**.**

Exploration, evaluation and development costs are accumulated in respect of each separate area of interest. Exploration and evaluation costs are carried forward where right of tenure of the area of interest is current and they are expected to be recouped through sale or successful development and exploitation of the area of interest or, where exploration and valuation activities in the area of interest have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. When an area of interest is abandoned or the directors decide that it is not commercial, any accumulated costs in respect of that area are written off in the financial period the decision was made. Each area of interest is also reviewed at the end of each accounting period and accumulated costs written off to the extent that they may not be recoverable in the future. Amortisation is not charged on costs carried forward in respect of areas of interest in the development phase until production commences.

d) Going concern

The accounts have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and liabilities in the normal course of business.

The group recorded a loss of $796,059 for the half year ended 31 December 2018. Total exploration expenditure written off in the period is $13,180 and no provision for impairment loss was made. The group had cash assets of $766,896 at 31 December 2018. The directors consider these funds, combined with additional funds from further capital raising to be sufficient for the planned expenditure on the mineral projects for the ensuing 12 months as well as for corporate and administrative overhead costs. The directors also believe that they have the capacity to raise additional capital should that become necessary.

In relation to the redeemable convertible notes (Notes), MGT has the right (but not the obligation) to extend the

- Maturity Date by twelve (12) calendar months (from 31 August 2019) if:
- MGT provides written Notice to the Noteholder at least (5) Business Days prior to the Maturity Date; and
- MGT pays an amount of $250,000 in cash to the Noteholder in cleared funds and without any withholding or set off.

MGT has the right to convert all or some of the Notes held by the Noteholder at any time 5 Business Days before the Maturity Date or Redemption Date of the Notes in cash or shares or a combination of cash and shares, by giving the Noteholder a Conversion Notice for those Notes.

For these reasons, the directors believe the going concern basis of preparation is appropriate.

3. REVENUE AND EXPENSES

Revenues and expenses from continuing operations:

Weighted average number of ordinary shares and potential ordinary shares used in the calculation of diluted earnings per share	738,649,809	546,294,264

6. SEGMENT INFORMATION

The consolidated entity has applied AASB 8 Operating Segments. AASB 8 requires the entity to identify operating segments and disclose segment information on the basis of internal reports that are provided to, and reviewed by, the chief operating decision maker of the consolidated entity to allocate resources and assess performance. In the case of the consolidated entity, the chief operating decision maker is the Board of Directors. Operating segments now represent the basis on which the Group reports its segment information to the Board.

Magnetite Mines Limited operates within the exploration industry in Australia and viewed as a single segment by management. Therefore, no separate segment report is considered necessary.

7. CASH AND CASH EQUIVALENTS

For the purposes of the half year Condensed Consolidated Statement of Cash Flows, cash and cash equivalents comprise the following:

	Consolidated

12. INTEREST IN JOINT VENTURES

The Group has not entered into any joint venture agreements with third parties in Australia.

13. COMMITMENTS

In the opinion of the Directors, there are no commitments at 31 December 2018 and none were incurred in the interval between the period end and the date of this financial report.

a) Mineral tenement expenditure commitments – Australia

The Group has annual expenditure obligations of approximately $939,085 with respect to the core assets being the Razorback Iron Project.

If the Group decides to relinquish certain leases and/or does not meet these obligations, assets recognised in the balance sheet may require review to determine the appropriateness of carrying values. The sale, transfer or farm-out of exploration rights to third parties will reduce or extinguish these obligations.

b) Operating Lease Commitments

The Group does not have any operating lease commitment.

c) Bonds

As at 31 December 2018, the Group has outstanding $32,588 (30 June 2018: $32,588) as bonds provided by the Company's bank for mineral tenements in Australia.

d) Bank guarantee

As at 31 December 2018, the Group does not have any bank guarantee provided by the Group's bankers (30 June 2018: $10,400).

14. CONTINGENCIES

Contingent liabilities

As at 31 December 2018, the Group has the following contingent liabilities:

Agreement with Mintech Resources Pty Ltd

Pursuant to a Variation Deed dated 11 August 2015, the Company finalised the acquisition of a 100% interest in EL 5432 (formally EL 4267) covering the Razorback Ridge area on the following terms:

1) The issue of Redeemable Convertible Notes on 31 August 2015 with a face value of $2.5 million (Notes issued on 31 August 2015 - refer to note 15)
2) Resource payments to Mintech calculated at $0.01 per DTR tonne of measured resources (resource payment = tonne of measured resource x $0.01 x [(Average DTR% of Resource tonnes)/100]). DTR means potentially recoverable tonnes of magnetite as determined by the Davis Tube Recovery technique;
3) A Production Payment of $3,000,000 to Mintech within 20 Business Days of the Company receiving payment of at least 95% of the purchase price for the first commercial shipment of Product from the tenement; and
4) A 1% Royalty on the Value of the Product produced from the tenement measured at the “mine gate”.

Agreement with Goldus Pty Ltd

ATO Garnishee Notice

On 22 August 2017, the Company received correspondence from the Australian Taxation Office (ATO) in relation to a notice pursuant to section 260-5 of the Taxation Administration Act 1953 (Cth) (Notice) that was issued to the Company on 24 June 2016 by the Australian Taxation Office (ATO). The Notice required the Company to pay to the ATO any money which the Company owes, or may owe in the future, to Mintech Resources Pty Ltd (up to a specified amount). The maximum liability claimed by the ATO under the Notice was $325,000 relating to amounts which the ATO asserts were payable to it on 31 August 2016 and 31 August 2017 but have not been paid to the ATO. The Company had however already issued shares to Mintech Resources Pty Ltd on 15 December 2016 to satisfy the 31 August 2016 payment amounting to $150,000. On 15 June 2018, the Company and the ATO agreed to an in-principle settlement agreement with the ATO for an amount of $175,000 for the outstanding interest due and payable on the redeemable convertible notes as at 31 August 2017, subject to the execution of the Deed of Release.

At the date of signing this report the Deed of Release had not been executed.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF MAGNETITE MINES LIMITED

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Magnetite Mines Limited, which comprises the condensed consolidated statement of financial position as at 31 December 2018, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity, and the condensed consolidated statement of cash flows for the half-year ended on that date, condensed notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration for Magnetite Mines Limited (the consolidated entity). The consolidated entity comprises both Magnetite Mines Limited (the Company) and the entities it controlled during the half year.

Directors' Responsibility for the Half-Year Financial Report

The directors of Magnetite Mines Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2018 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Magnetite Mines Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Whilst we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our review was not designed to provide assurance on internal controls.

Our review did not involve an analysis of the prudence of business decisions made by the directors or management.

INDEPENDENT AUDITOR'S REVIEW REPORT

Stantons International

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, has been provided to the directors of Magnetite Mines Limited on 15 February 2019.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Magnetite Mines Limited is not in accordance with the *Corporations Act 2001* including:

(a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2018 and of its performance for the half-year ended on that date; and

(b) complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.

Material Uncertainty Regarding Going Concern

We draw attention to note 2 of the financial report, which describes that the financial report has been prepared on a going concern basis. At 31 December 2018 the Group had net assets of $6,904,794, cash and cash equivalents of $766,896 and net working capital deficit of $2,168,091. The Group had incurred a loss for the period ended 31 December 2018 of $796,059 and had net cash outflows from operating activities of $748,575.

The ability of the Group to continue as a going concern and meet its planned exploration, administration, and other commitments is dependent upon the future successful raising of necessary funding through equity or borrowings, successful exploitation of the Group's exploration assets, and or sale of non-core assets. In the event that the Group cannot raise further equity, the Group may not be able to meet its liabilities as they fall due or realise its assets in the normal course of business.

Our conclusion is not modified in respect of this matter.
